

*LINEA PRODOTTI PER IL
SETTORE AEROSPAZIALE
ED ENERGIA*

*PRODUCT'S LINE FOR THE
AEROSPACE AND ENERGY
DEPARTMENTS INDUSTRIES*

Al Settore Aerospaziale ed Energia il GRUPPO PARPAS ha sempre dedicato moltissime delle proprie risorse per sviluppare e realizzare prodotti tali da soddisfare pienamente la sua Clientela. Molti dei più grandi ed importanti costruttori mondiali si sono affidati alla tecnologia di questo Gruppo Italiano considerandolo, a buona ragione, più di un partner strategico.

Le sue conoscenze non sono solo limitate alla costruzione del prodotto ma sono aperte anche a materiali con relative tecniche di lavorazione e strategie di produzione.

To the Aerospace and Energy Departments the PARPAS GROUP has always devoted a lot of own resources, to develop and to realize products such to fully satisfy his Customers.

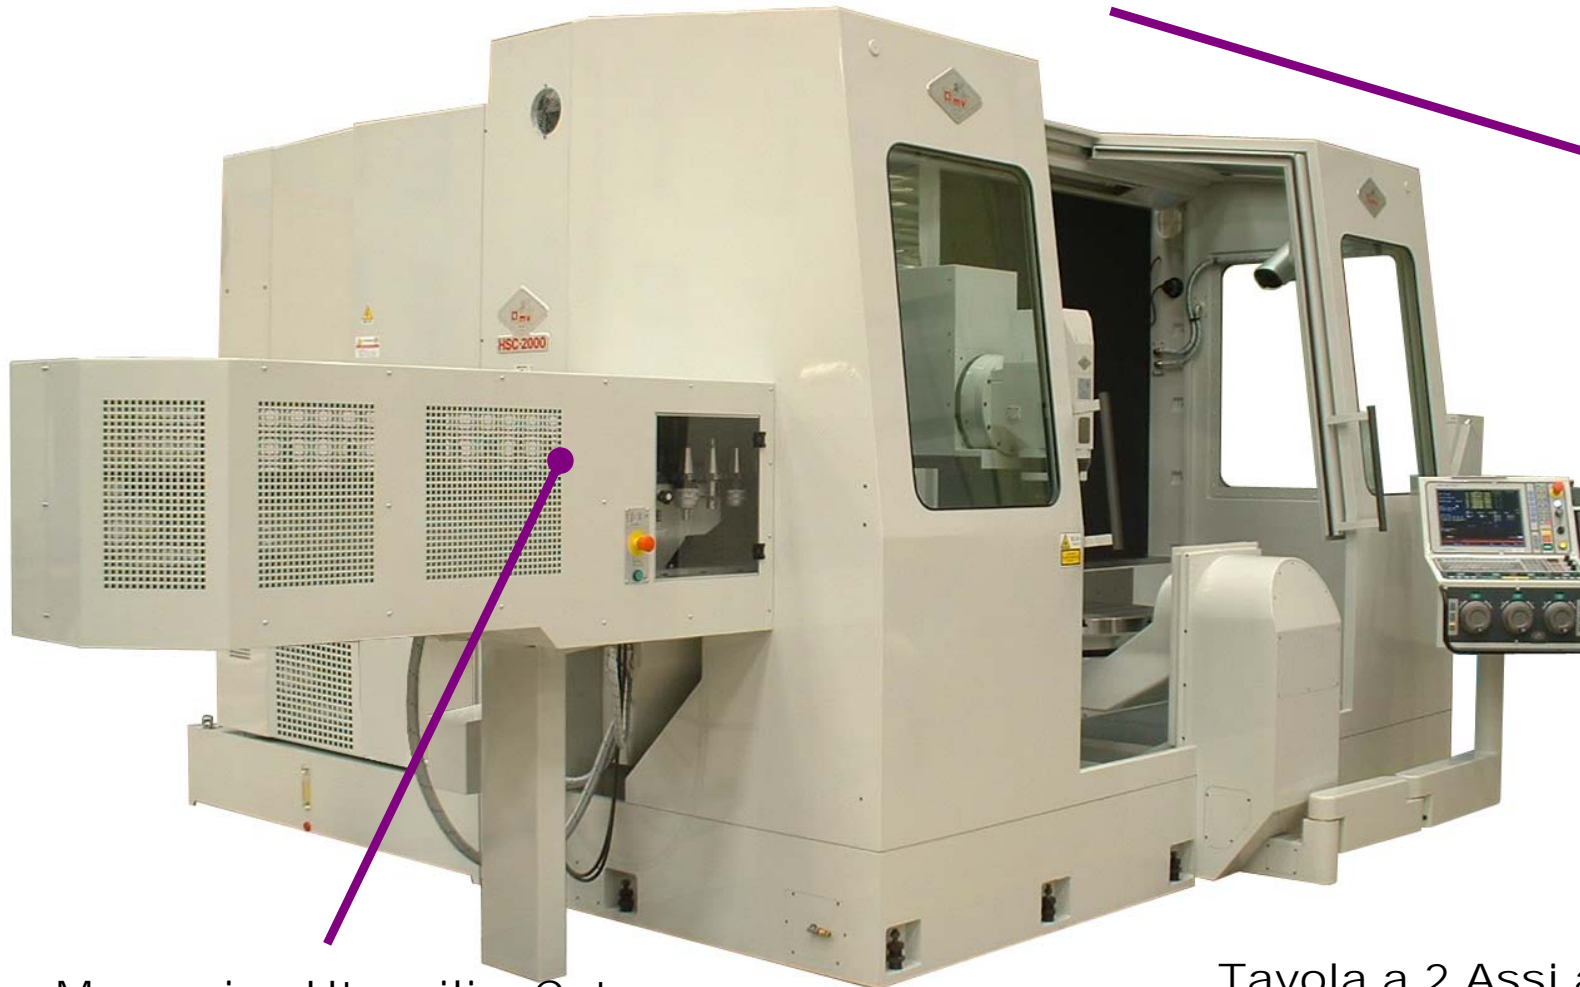

Many of greater and important world's builders are submitted to the technology of this Italian Group, considering, to well reason, more than a strategic partner.

Its knowledges are not alone limited to the circle of the product but open also to materials with relative techniques of machinings and productive strategies.
